DETAILED ACTION

Allowable Subject Matter

1. Claims 1-19 and 31-35 are allowed.
2. The following is an examiner's statement of reasons for allowance:

After carefully reviewed the Applicant's arguments and newly amended claims in paper filed 1/26/05, and updated prior art of record, the Examiner finds that the Applicant's arguments and newly added limitations are reasonable and strongly persuasive. Therefore, they place the application in condition for allowance. The primary reason for the indication of the allowability of the above claims is the inclusion therein, in combination as currently claimed as a whole, of the limitation of the method of programming memory cells of a memory device comprising a step of selectively depositing a first insulating layer over a first portion of the memory cells in a region of the memory device while not depositing the first insulating layer over the second portion of the cells, or coupling the cells to the word lines while leaving the other memory cells decoupling from the word lines. This limitation is found in the above claims and is neither disclosed nor taught by the prior art of record, alone or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
